ABOUT ME

First-year B.Tech student passionate about App Development, Vibe Coding, AI/ML. Currently exploring Python, Data Structures, and App Development Concepts. Actively building projects and improving problem-solving skills.

TECHNICAL SKILLS

- **Languages:** C, Python, C++
- **Core:** Data Structures & Algorithms
- **AI/ML:** NumPy, Pandas, Matplotlib, Seaborn
- **App Development:** Flutter, JavaScript
- **Tools:** Git, GitHub, VS Code

PROJECTS

1) Personal Finance Dashboard [🐙 Code](#) [🔗 Live](#)

- **Tech Stack:** HTML, CSS, JavaScript, Canvas API
- Built a responsive personal finance web application enabling dynamic tracking of transactions, budgets, and savings goals with real-time chart updates.
- Implemented multi-page dashboard with spending analytics, category-wise budget health indicators, and data persistence using local Storage.

EDUCATION

KIET Group of Institutions

2025-2029

B.Tech in Computer Science and Engineering

ACHIEVEMENTS

- Solved 50+ LeetCode problems.
- Completed LangChain projects during Bootcamp.
- Scored 90 percent marks in Class 12.
- Scored 92 percent marks in Class 10.
